

iWave Dashboards

Deep Data Exploration and Analytics Made Easy

Examining vast amounts of data to uncover new insights doesn't have to be complicated. With interactive dashboards, you can explore, analyze and visualize donor data without the use of complex queries.

Better Prospecting

Build your pipeline and refine your prospecting strategy using interactive elements.

Tell a Story with Data

Use data visualization to convey important information and insights.

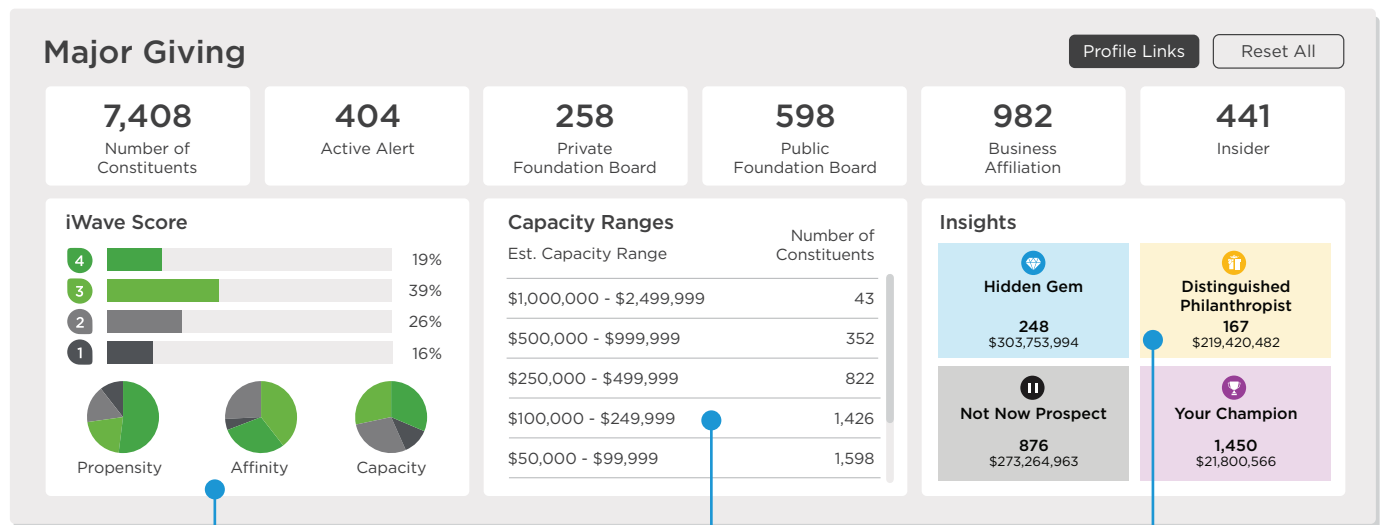

Analytics Made Easy

So easy, anyone can use it regardless of their technical background.

A Picture is Worth a Thousand Data Points

Navigate vast amounts of data and make operational and strategic decisions at a glance.

Metrics, charts, and extensive data are all in one place so you can identify trends and gain actionable insights.

Powered by Tableau, iWave Dashboards are fueled by billions of fundraising intelligence data points and your donor profiles.

Easily filter and interact with any visualization to answer questions.

Visual Analytics That Tell Your Donor Data Story

Whether you're looking to prioritize prospects based on multiple attributes or optimize your fundraising operations, Dashboards can provide actionable insights that will help you raise more donations. And because Dashboards condense and organize massive amounts of data into a straightforward overview, aligning with your organization's leadership and fundraising teams is easier than ever.

iWave Dashboards are Purpose-Built for Nonprofit Teams:

Major Giving

View and analyze key wealth and philanthropic ratings, plus AI-powered analytics for top major giving donors and prospects.

Planned Giving

Discover which donors are most likely to leave a legacy gift and dive deeper into their wealth, their age, which causes they support, and much more.

Executive Summary

Receive a high-level summary of a donor portfolio including wealth, philanthropic and biographic information.

Operations

Optimize platform usage by tracking in-app activities including profiles created, screens used, and alerts created.

Maps

Explore an interactive geographic map of your donors to help plan donor visits, select locations for special events, and determine staffing needs.

“ This tool is such an analysis timesaver! We can see what we've already accomplished and what we need to focus on next. iWave's dashboards give us a view of our constituents that we're not able to get in our CRM. I share the dashboards with my leadership and they love the visuals.”
